

# Amendments to the Claims

- 1) (Original) A pigment preparation comprising C.I. Pigment Yellow 74 of formula (I) as base pigment and C.I. Pigment Yellow 62 of formula (II) as pigment dispersant

- 2) (Currently Amended) The pigment preparation as claimed in claim 1, containing
- a) 50% to 99.9% by weight of the C.I. Pigment Yellow 74,
  - b) 0.1% to 25% by weight of the C.I. Pigment Yellow 62
  - c) 0 to 25% by weight of auxiliaries at least one auxiliary,
- the fractions of the respective components being based on the total weight of the preparation, 100% by weight (~~100% by weight~~).
- 3) (Currently Amended) The pigment preparation as claimed in claim 1 ~~or~~ 2, containing
- a) 60% to 99.5% by weight of the C.I. Pigment Yellow 74,
  - b) 0.5% to 15% by weight of the C.I. Pigment Yellow 62
  - c) 0.1 to 15% by weight of auxiliaries at least one auxiliary,

the fractions of the respective components being based on the total weight of the preparation, 100% by weight (~~100% by weight~~).

4) (Currently Amended) The pigment preparation as claimed in ~~one or more of claims 1 to 3~~ claim 1, containing

- a) 65% to 99% by weight of the C.I. Pigment Yellow 74,
- b) 1% to 10% by weight of the C.I. Pigment Yellow 62
- c) 0.1 to 15% by weight of auxiliaries at least one auxiliary,

the fractions of the respective components being based on the total weight of the preparation, 100% by weight (~~100% by weight~~).

5) (Currently Amended) A process for producing a pigment preparation as claimed in ~~one or more of claims 1 to 4, which comprises~~ claim 1, comprising the step of mixing the base pigment and the pigment dispersant, and, where appropriate, the auxiliary or auxiliaries with one another optionally, at least one auxiliary.

6) (Currently Amended) A process for producing a pigment preparation as claimed in ~~one or more of claims 1 to 4, which comprises~~ claim 1, comprising the step of jointly synthesizing the pigment dispersant and the base pigment.

7) (Currently Amended) ~~The use of a pigment preparation as claimed in one or more of claims 1 to 4 for pigmenting~~ A high molecular weight organic materials material of natural or synthetic origin pigmented by the pigment preparation as claimed in claim 1, such as wherein the high molecular weight organic material of natural or synthetic origin is selected from the group consisting of plastics, resins, varnishes, paints, electrophotographic toners, electrophotographic and developers, electret materials, color filters, and also inks, including ink-jet inks, and printing inks, and seed.

- 8) (Currently Amended) ~~The use as claimed in claim 7 for pigmenting~~A solvent-borne and aqueous printing ink systemssystem comprising the pigment preparation as claimed in claim 1.
9. (New) An aqueous printing ink system comprising the pigment preparation as claimed in claim 1.
